

Unit 5 Part 1 Study Guide

~ Angles and Polygons ~

Unit 5: Geometry (Ch. 7 in your book)

The following content will be assessed on your unit test. You should review your notes, worksheets, and homework. For extra examples and videos be sure to look over Unit 5 on www.shermanmath7.weebly.com

- Simple polygons and their angles
- Triangle Review (acute, obtuse, right, scalene, isosceles, equilateral)
- Angles (corresponding, acute, obtuse, reflex, straight vertical, complementary, and supplementary)
- Angles between intersecting lines (parallel lines and transversals)

For extra support beyond material suggested above, please reach out to me prior to the assessment.
